Michael L. Arnold has over 45 years of experience in architecture and engineering, managing projects, consultants, personnel and designing projects through all disciplines of facility design, maintenance and construction implementation.

Mr. Arnold thoroughly understands the client professional relationship, working hand-in-hand with the client stakeholders and maintaining close communications throughout the project. He is knowledgeable in different project delivery methods and has extensive experience developing feasibility studies, functional and architectural programming, master planning, space studies and planning, schematic design and construction oversight.

Mr. Arnold's in-depth knowledge of Federal, State, and Local Building Codes is invaluable in planning client projects. As a 3-term Councilperson, he has insight to securing project zoning approvals, variances and building permits.

Mr. Arnold has experience working with local, state, federal and military branches of government. His past project experience covers a wide variety of project types including aqua pool and play facilities, commercial, education, food service/restaurant, government, hospitality, heavy and lite industrial, institutional, marina, medical, municipal, petroleum and recreational. Mike has been with Encompass since 2003 and continues building and nurturing his professional relationships.
